Asbestos Removal

Project Name: Loxley Manor, Sheffield.

Project Value: £357,000.00

Project Scope: Removal of Sprayed asbestos coating to ceilings, approx. 4200 m²

Project Brief

SCK Group were successful in being awarded the prestigious contract to remove 4200 m² of asbestos sprayed coatings to Loxley Manor, Sheffield.

The project was carried out to the entire first floor which the ground floor would be fully occupied and operational throughout the 12 week project.

We utilised 4 wet strip injection machines throughout the course of the project to ensure we had continuity for the removal teams along with correct injection times and surfactant were applied to each area of the sprayed coatings.

The internal structure of the building including walls, ceilings and electrical / mechanical systems were dismantled under fully controlled conditions and disposed of as hazardous waste.

Our client instructed additional works within the specified contract deadline which we completed on time and within the original time constraints set out in the original scope of contract.
