## Asbestos Removal

**Project Name:** Oxford University Estates, Library building.  
**Project Value:** £118,000.00  
**Project Scope:** Removal of Asbestos Insulating Board Soffits to perimeter of library building circa 440 m.

### Project Brief

SCK Group were instructed to remove under fully controlled conditions Asbestos Insulating Board soffits to the entire perimeter of the library building, the enclosures were built in four 110 metre sections to fully enclose each elevation of the building to facilitate the access equipment so we could gain access to the soffit boards and keep the enclosure under negative pressure throughout the project.

We completed this project one week early due to the careful planning and execution from our contracts management team who were on site throughout the duration of this project.
